It's Not Online!

The Other 90% of Records

Featuring: Suz Bates

Many useful records for genealogy research are not online. How do you find these records and then how do you access them? Suz Bates, an Illinois genealogist, will present ways to find and use archives, repositories, depositories, historical societies, and more to expand your family history research.

Suz Bates has been researching her family history for over 45 years. After a full career in education, she now combines teaching skills with extensive genealogy research experience and training in work as a presenter, researcher, and consultant. Suz' presentation specialty is step by step instructions for various researching, archiving and technology skills for genealogists and family historians.

Member supported. Free and open to the Public!
