

Suncoast Genealogy Society

Saturday, 24 May 2025

in the Palm Harbor Room at Palm Harbor Library

1:30 pm Meeting

2:00 pm Program - In Person Speaker

Denise Manning,
Speaker

DNA and Your Family Tree

Use 'shared matches' and 'centimorgans' to assess your DNA matches, and group them according to shared ancestors. These tools are essential for analyzing autosomal DNA results.

Denise Manning has a B.A. in History and a M.A. in Library and Information Science from the University of South Florida. She works at the Tarpon Springs Public Library where she facilitates a monthly genealogy group. As a volunteer, she co-facilitates the DNA groups for the Pinellas Genealogy Society at the Largo Public Library. Denise enjoys researching her emigrant ancestors from Scandinavia and the British Isles using both traditional methods and DNA technology.

Guests are welcome
